Dear students,

here is some information about the flash talk for your poster presentation.

- Every one of you has **4 min time to present** their poster/ slide
- After the presentation we plan **3 min for questions** from the audience
- At the end of a block there are **2 minutes left to change the room**

- Please test technical setup prior: sound, camera, internet connection
- We will ask you to turn on your camera for the presentation
- Avoid direct sunlight (too much contrast!)
- Look directly into the camera every now and then

- Remember to speak slowly and work with pauses
- Ask your audience to interact with you (thumbs up etc.)
- People tend to not smile when they listen to you digitally – don't be irritated and have fun!

We have uploaded a timetable for the poster presentation and an overview of the groups.

Please ask questions in the forum here in the Moodle course if anything is not clear.

Best regards,

Poster committee ITSC 20/21
